

Thank You Review

Your 2021 donations to the Conservation Action Fund protected 8,092.000 m² of critical land and habitat. This will allow species to rebound and thrive and keeps approximately 295,000 metric tonnes of carbon safely stored!

Your gift assists Rainforest Trust and our local partners to purchase and protect real acres of threatened rainforests and tropical habitat around the world. These crucial acres are home to many rare and endangered species of wildlife and biodiversity.
